Ostend (Belgium) - September 9, 2024

Program

Morning session (open also for Larvi participants)

09:00 – 09:20 Welcome and Introduction (from ISA to IAAC) – Patrick Sorgeloos

09:20 – 09:30 IAAC organization – Simon Wilkinson

09:30 – 09:50 Artemia tank cultures: experience from Malaysia - Yeong Yik Sung

09:50 – 10:00 Development and utilization of Artemia resources in China – Liying Sui

10:00 – 10:20 Artemia resiliency in response to dramatic changes in Great Salt Lake salinity and volume – Brad Marden

10:20 – 10:40 Adaptive management of salinity in Great Salt Lake: an adjustable berm provides a unique tool to protect the Artemia population- Phil Brown

10:40 – 11:00 Coffee break

11:00 – 11:20 New techniques for (epi)genotyping of Artemia species and strains –
Stephanie De Vos

11:20 – 11:40 Predicting Artemia nauplii hatching kinetics through temperature measurement –
David Johanson

11:40 – 12:00 Optimizing co-feeding strategies for enhanced survival and growth in *Litopenaeus vannamei* postlarvae: a comprehensive study on Artemia inclusion and dietary options – Yattish Ramena

12:00 – 12:20 Reduction of Artemia fed to larval shrimp results in inferior pond success –
Robins McIntosh

12:20 – 12:40 Artemia4Bangladesh project – Meezanur Rahman

12:40 – 13:00 Year-round Artemia pond production in monsoon climate in Thailand –
Banchong Nissagavanich

13:00 – 14:00 Lunch

Afternoon session (for IAAC members only – detailed programme will be added in the coming days)

14:00 – 17:30 Membership meeting - via videoconferencing
